

Setting Sail for a Greener Future with Renewable Energy Skills for all

MOVING ON, FIRST OUTPUTS ARE DONE

Project Number: 2024-1-FR01-KA220-VET-000251591

WHAT'S NEW?

Over the past six months, our project partners have been working hard to deliver on our promises and we are proud to share two comprehensive curricula with you.

1. Comprehensive Green Education Curriculum and Learning Model Framework (based on EQAVET Standards)

This curriculum invites you to explore the following modules:

- Renewable Energy Technologies
- Sustainable Resource Management
- Environmental Conservation Practices
- Green Entrepreneurship
- Policy Frameworks
- Practical Skills Development

2. Learning Curriculum on Gender Equality in the Green Sector

Here, we focus on building awareness and practical strategies through modules such as:

- Understanding Gender Disparities in the Green Sector
- Promoting Gender Inclusivity and Diversity in Green Industries
- Addressing Barriers to Gender Equality in Green Careers
- Tools and Strategies for Advancing Gender Equality

The next step in our project is already underway!

We are excited to announce that work has begun on one of our key project results – the Teacher Training Toolkit. In our upcoming newsletter, you will discover all seven module titles, each accompanied by carefully developed content and teaching materials, engaging learning activities, and practical suggestions for assessment.

Stay tuned and don't miss the opportunity to learn something new!
